Passon Rattanakongton

Senior Frontend Developer

Bangkok, Thailand · tyty.passon@gmail.com · LinkedIn
Available for new opportunities

Summary

I build the internal tools teams run on every day: a CRM, order management, HR and admin dashboards, with React, Next.js and TypeScript. Based in Bangkok, currently at Nutrition Profess.

Experience

2026 - Present

Senior Frontend Developer
Nutrition Profess · Bangkok, Thailand

- Building the company's internal CRM for outbound calling: campaigns, customers and follow-ups, orders, supervisor dashboards and role-based permissions.
- Mentored junior developers and helped improve team workflows.

`React · TypeScript · Redux Toolkit · Tailwind CSS`

2023 - 2025

Frontend Developer
Nutrition Profess · Bangkok, Thailand

- Built HR CheckIn Dashboard for monitoring employee attendance and exporting reports.
- Developed Admin Dashboard for managing platform data, users, and analytics.
- Built OMS (Order Management System) for tracking orders end-to-end.
- Developed Data Management Web for importing, exporting, and managing structured data.

`React · Next.js · TypeScript · JavaScript · Tailwind CSS · Figma`

2019 - 2023

Video Editor & Motion Graphics
Freelance

- Edited videos and made motion graphics for clients through personal referrals, while moving into frontend development.

Selected projects

Outbound CRM 2026
Internal · Production
Internal CRM for outbound calling: call campaigns, customers and follow-ups, order taking, supervisor dashboards and role-based permissions.
`React · TypeScript · Redux Toolkit · Tailwind CSS`

Design Component Library 2026
Personal · In progress
A curated collection of reusable UI components (buttons, modals, forms, tables and more), built for consistency and rapid development across projects.
`Next.js · TypeScript · Tailwind CSS`
Live demo Source

HR CheckIn Dashboard 2025
Internal · Production
Admin web for monitoring employee information and exporting attendance reports. Built for HR teams to track daily check-in/check-out records.
`Next.js · TypeScript · Tailwind CSS`

Admin Dashboard 2024
Internal · Production
Centralized admin dashboard for managing platform data, users, and analytics across multiple products.
`Next.js · TypeScript · Tailwind CSS`

Data Management System 2024
Internal · Production
Internal web tool for managing, importing, and exporting structured data with role-based access control.
`React · TypeScript · Tailwind CSS`

Order Management System 2023
Internal · Production
Order Management System for tracking and managing orders end-to-end, from creation through fulfillment and delivery.
`React · JavaScript · Vite`

Education

2015 - 2019

Faculty of Information Technology and Multimedia
Thai-Nichi Institute of Technology · Second Class Honours

2012 - 2015

High School
Udomsuksa School · Arts-Mathematics Program

Skills

`React · Next.js · JavaScript · TypeScript · Tailwind CSS · Figma · Git · Vite`

Currently learning

AI integration: Exploring LLM APIs and building chat and assistant features into web apps.
Web animations: Diving deeper into GSAP, Framer Motion, and CSS keyframe techniques.
System design: Learning scalable frontend architecture and design patterns for large apps.
